

Let's ask SANDEN

Since our establishment in 1976, we have been in the manufacturing industry centered on industrial motors. "Repair and sale of industrial motors" by utilizing the experience and achievements of supporting major electric appliance manufacturers for many years. We will continue to make every effort to meet the needs of our customers, such as "metal resistors for starting motors".

Motor

Brand new

OEM

Used sales / repair

We mainly manufacture and assemble motors (casting frame motors, steel plate frame motors and aluminum frame motors) of 0.2KW to 11KW [71 frames to 160 frames] size. We are making efforts to help our customers while covering a wide range from coil manufacturing, varnish processing, steel plate frame manufacturing, shaft material processing, casting processing, rotor balance processing, painting, and inspection. We also repair motors, rewind coils, replace bearings, repair shafts, and sell motors. We can support a wide range of motor outputs such as 0.75KW to 75KW (1 horsepower to 100 horsepower) and other special motors, so please feel free to contact us.

Metal resistor

Original design and production

We manufacture and assemble metal resistors and controllers for winding motors. It is used for starting the secondary resistance of a large winding type motor (~2000KW) by electric operation. In addition, we also provide on-site maintenance by making use of our experience.

Can I repair the motor quickly?

Can I ask to replace the metal resistor because I am not familiar with it?

What should I do for solving the production problems that major companies have?

Please feel free to contact us if you have any troubles.

Our employees work to solve your problems as a concierge of motors and metal resistors.

When your company is in trouble ... We can help you.

That is the best way.

会社概要 Outline

Company Name	Sanden Kogyo Co., Ltd.
Representative	Representative Director Masanori Sato
Established	August 20, 1976
Capital	10 million yen
Headquarters / Headquarters factory	401 Tozenji, Fujiwara-cho, Inabe City, Mie Prefecture 511-0515
TEL	0594-46-2507
FAX	0594-46-3804
Business Lineup	Motor manufacturing Motor repair and sales Metal resistor design and manufacturing
Subcontract factory	10 cooperating factories
Bank	Hyakugo Bank Inabe Branch Shoko Chukin Yokkaichi Branch Kuwanamie Shinkin Bank Ageki Branch
Main client	Meidensha Co., Ltd. Kofu Meidensha Co., Ltd. Meiden Engineering Co., Ltd. Toshiba Industrial Equipment Systems Co., Ltd. Fuji Electric Co., Ltd. other
Permission	Secondhand dealer license 551110041500

沿革 History

August 1976	Sanden Kogyo Co., Ltd was established with a capital of 9 million yen by separating the motor division of Sanden Electric Co., Ltd. Started production of small motors at Meidensha Co., Ltd.
October 1982	Started assembling the control center and switchboard for equipment of Meidensha Co., Ltd.
October 1991	New office and factory expansion of the head office.
September 1995	The capital was increased to 10 million yen.
April 2001	Started assembling the metal resistor board of Meidensha Co., Ltd.
August 2004	Started build-to-order manufacturing of switchboard assembly by Nippon Denko Co., Ltd.
March 2007	Started motor assembly of Toshiba Industrial Equipment Manufacturing Co., Ltd.
August 2009	Introduction of environmental management system (M-EMS) 
August 2009	Started assembling metal resistors from Fuji Electric Co., Ltd.
November 2021	Started inspection work of Meiden Engineering Co., Ltd.
